CAREER SUMMARY

I help product teams, companies, and digital creators attract and keep clients by creating the ideal experience their users love. With 3 years of experience in, **HTML**, **CSS**, **JavaScript**, **Tailwind CSS**, **React**, **Redux**, **Next.js**, **Typescript** and **Git**, I am a strong fit for any frontend developer role.

EDUCATION

Elizade University, Ilara-Mokin   **Nigeria**
BEng Computer Engineering   Nov 2022 -July, 2026

WORK EXPERIENCE

Frontend Developer   Lagos, Nigeria
ATB Tech (Leading company in software development)   March 2024 – October 2024

- Reduced time taken for job upload by 90% by implementing bulk file upload.
- Mentored junior team members and participated in strategic discussions.
- Facilitated 50 new sign up in a week by redesigning the recruitment module for better user experience.

Frontend Developer
Open Desk Consult Limited   Lagos, Nigeria
                                                                         February 2025 – Present

- Translated UI/UX design wireframes into code and produced engaging web applications
- Developed an admin dashboard and user facing pension web application using Next.js, Typescript and ANTD.
- Maintained responsive, high-performance web applications using modern front-end technologies.

PROJECTS

- Developed a full-stack change management software, *CrediCaf*, to help a business owner track customer credits and finances. Leveraged **React Query** for efficient data fetching and synchronization, **React + styled components** for building an interactive web interface, and **Supabase** for backend services. Implemented features such as user authentication, role management, server-side pagination, search functionality, and filtering. CrediCaf

- Redesigned and optimized a job search web application, myxalary, using full stack technologies. Translated a figma prototype into an interactive and responsive website using **React + Redux** and **SCSS**, thus giving users a better experience. Created CRUD API with

express.js and **Node.js**, Implemented data fetching and synchronization on the frontend using **react query** [myxalary](#)
- Engineered a web application, Flixx, to provide vital information on movies, series, and actors. Utilizing the [TMDB](#) API for data fetching, I streamlined the user experience by delivering real-time movie recommendations and up-to-date information. Implemented interface updates, and robust error handling to ensure seamless functionality. Achieved active engagement, with over 10 users regularly receiving movie recommendations on [Flixx](#)

- Developed a full stack idea sharing application. Crafted the frontend with **Tailwind**, **HTML**, and **JavaScript**, while the backend was powered by **Express.js** and database on **MongoDB**. Achieved a user base with over 15 users actively sharing their ideas on the application. [RandomIdea](#)

SKILLS

Technical Skills: React, Redux, Next.js, Typescript, HTML, CSS, JavaScript, Tailwind, styled-components, zustand, mantine UI, Git, MongoDB, Express.js, MongoDB.

Soft Skills: Clear communication skills, Problem solving mindset, result oriented, attention to Details, advanced analytical skills, fast learner, collaborator, learning Mindset, Passion for growth.

AWARDS AND VOLUNTEERISM

First Place Winner   July, 2023
GDSC Elizade university coding solution challenge

Member, GDSC Elizade University.   July, 2023
Organized coding workshops and mentored junior developers.

TRAINING AND CERTIFICATIONS

- [Frontend development certificate](#) **Ingressive for good**
- [JavaScript Frameworks Proficiency certificate](#) **Google Developer Community**
- [Modern JavaScript Certificate](#)   **Traversy Media**
- [React & Next.js certificate](#)   **Udemy**
